

## Laptop Designed for Our Students!

**MICROSOFT OFFICE (LIFETIME)**

**DURABLE**

**MOBILE**

**11 HOUR BATTERY**

**LIVE TECH SUPPORT**

Designed by Microsoft, Intel, and CDI to specifically meet the needs of our students in foster care, this computer is an ultra-slim and rugged laptop. Its light-weight design makes it easy to transport and a shock-proof flash and tapered shape makes it more durable and able to handle bumps and occasional drops. This laptop has an incredible battery life, lasting up to 11 hours on a single charge.

Whether our students are completing homework, applying to college, submitting online job applications, streaming online classes or instructional videos, connecting with friends, family and their support networks via social media, or surfing the web to learn more about the world around them, this laptop will help our youth succeed!

### COMPUTER ACCESS MATTERS

Less than 20% of Foster Youth in California have consistent, reliable access to a computer compared to their peers who have 90% access (79% for low income youth). A study of 730 in college or college-bound California Foster Youth who received an iFoster laptop showed **having a laptop**:

- Improves a Foster Youth's grades and decreased missed school days
- Increases their pursuit of college and employment
- Improves a Foster Youth's relationship with their biological family
- Improves their connections to friends, family and their support networks
- Increases a Foster Youth's life satisfaction
- Reduces depression and suicidality
- Makes a Foster Youth feel they fit in and that they would be successful
